

QUALITY POLICY

THE FUNDAMENTAL ORIENTATION OF OUR QUALITY POLICY IS:

1. Our customers are our partners and we continuously improve the quality of our products and services in working with them.
2. All significant risks are constantly monitored, assessed and managed so as to achieve the objectives of quality and environmental management.
3. Our competitive advantage lies in flexibility and responsiveness to customer requirements.
4. Punctuality and reliability are key indicators of our performance.
5. Product price is in line with the level of product complexity and customer expectations.
6. Process development is based on continuous information technology equipment upgrades, and the introduction of new materials and technologies.
7. We appreciate the achievement of goals in terms of satisfaction of employees, customers, suppliers, the owner and the social environment.
8. The development of company's values is the basis of employee motivation and commitment to the company.
9. We ensure continuous cooperation with customers and suppliers, aiming at constant improvement.
